

Care@Work benefits to help new parents.

Adjusting to a new bundle of joy, and the sleepless schedule that comes with them, is never easy. Especially when you go back to work. That's why, if your family has a child age 12 or under, your company provides Care@Work benefits—to make it easy to find a little help, and manage and pay for it, too.

Use your Care.com Membership.

Need a babysitter? Nanny? Housekeeper? Pet sitter? You have unlimited access to all of Care.com, so you can post jobs, search local caregivers, and message with candidates as often as you'd like.

Hire, chat and even pay from anywhere.

Use your desktop or the app to connect with any of the caregivers on Care.com. You can access background check options and reviews, and set up phone interviews or video chats. Once you hire, it's easy to pay through Care.com, too.

Get help when you're in a pinch.

You have Backup Care benefits for children. That means you can quickly get vetted care for any of your children, from newborns to teens, 24/7 for work-related issues.

**Your company provides
new parents with:**

Care.com Membership

Find local caregivers whenever
you need help, 24/7/365.
