

Convenience Pharmacy to Expand Deskside Prescription Delivery Program

Beginning Monday, April 30, the Convenience Pharmacy will expand the deskside prescription delivery program to include refrigerated items to nearly all locations, see exclusions below.

LG Health employees, their spouses, and dependents will have the opportunity to have refrigerated medications, such as insulin products and specialty medications, filled at the Convenience Pharmacy and delivered to the employee's worksite. This service allows employees to take advantage of lower copays offered by the Convenience Pharmacy.

Currently, the refrigerated deskside delivery service does not include: Affilia, Manor Ridge (Manor Ridge Drive), Norlanco, Parkesburg and Willow Lakes. These locations will begin to offer this service in the near future. Affected employees will receive more information as this program is introduced to their work location.

If you have any questions, please contact your office manager or the Convenience Pharmacy at 717-544-5929.
