

Talkiatry Overview

Talkiatry is a national group telepsychiatry practice. We provide in-network, outpatient telepsychiatry for children (5+), adults, and geriatric patients. We employ over 300 board-certified, W-2 psychiatrists who cover specialties that include Child and Adolescent Psychiatry, Geriatric, Addiction, Consult-Liaison, and more. We are in-network with most major health insurers in the country and can typically see patients in 5 days or less.

What we treat	What we don't treat
<ul style="list-style-type: none">• ADHD• Adjustment disorders• Anxiety• Behavioral issues• Bipolar disorder• Depression• Insomnia• Mood disorders• Obsessive-compulsive disorder (OCD)• Perinatal mental health• Phobias• Postpartum depression• PTSD/Trauma• Surgical clearance (gender confirmation, bariatric surgery)• Tics/Tourette syndrome	<ul style="list-style-type: none">• Psychotic disorders• Actively suicidal patients• Patients who have been admitted for psychiatric conditions in the last 6 months• Patients who need talk therapy only

Geographic Coverage

We can treat adult and minor patients in the following markets:

- **Adults:** We can treat adults in all US markets (including DC) except for AK, DE, HI, ID, ND, NM, SD and WY
- **Minors:** We only treat minors in markets where we have doctors specializing in Child and Adolescent Psychiatry. These markets include the following: AL, AZ, CA, CO, CT, DC, FL, GA, IA, IL, IN, KY, LA, MA, MD, MS, NC, NE, NJ, NY, OH, OR, PA, SC, TN, TX, VA, WI, WV

How it Works

1. **Take our online assessment:** Prospective patients answer a few questions about what they're looking for and their medical history.
2. **Choose your psychiatrist:** We'll help match the patient with a psychiatrist on our team who fits their needs and schedule. The patient can schedule directly online or call our team directly (instructions provided in assessment).
3. **Get the care they need:** The patient will have their first virtual visit in days and start collaborating on their care with their doctor.
